Successful participation in the Carroll University Doctor of Physical Therapy (DPT) Program requires that a candidate possess the ability to meet the requirements of the program. Though the program may modify certain course requirements to provide a person with a handicap an equivalent opportunity to achieve results equal to those of a person without a handicap, there are no substitutes for the following essential skills.

The applicant/candidate must initially meet the health requirements and technical standards described below to gain admission to the DPT program. If a student has a change in health status while enrolled in the DPT program, the student is required to inform his/her program adviser and update the technical standards form. Where applicable, the DPT program might require submission of supporting documentation from appropriate providers.

REQUIREMENTS

1. Completion of the technical standards form is required upon admission to the DPT program.
2. The form must be updated immediately if the student has a change in his/her ability to meet technical standards at any point within the program.

DIRECTIONS

To indicate you are able to meet the safety and technical standards described below, initial each paragraph and sign at the bottom of page 2. Any evidence of a possible violation of the safety and technical standards might be cause for further evaluation at the university’s discretion and/or dismissal from the DPT Program. Evidence of possible violation may be obtained from the application materials, interviews or visual observations. Further evaluation may entail an interview or a physical examination by a physician or other provider of the university’s choice.

TECHNICAL STANDARDS FOR CARROLL UNIVERSITY PHYSICAL THERAPY STUDENTS

In preparation for professional roles, physical therapy students are expected to demonstrate the ability to meet the demands encountered in a physical therapy career. Certain functional abilities are essential for the delivery of safe and effective care. An applicant to the DPT Program must meet and maintain the following technical standards for progression throughout the program. Students unable to meet these technical standards will not be able to complete the program. Students shall notify the program in a timely manner of any change in their ability to meet technical standards.

Initial here

The technical standards include, but are not limited to, the following:

General Ability. The student is expected to possess functional use of the senses of vision, touch, hearing and smell, so that data received by the senses is integrated, analyzed and synthesized in a consistent and accurate manner. The student is expected to possess the ability to perceive pain, pressure, temperature, position, vibration and movement to effectively evaluate patients. A student must be able to respond promptly to urgent situations.

Initial here

Observational Ability. The student must have the ability to make accurate visual observations and interpret them in the context of clinical/laboratory activities and patient care experiences. The student must be able to document these observations accurately.

Initial here

Communication Ability. The student must communicate effectively verbally and non-verbally to obtain information and explain that information to others. Each student must have the ability to read, write, hear, comprehend and speak the English language to facilitate communication with patients, family members and other members of the health care team. The student must be able to document and maintain accurate records, present information in a professional manner and provide patient instruction to effectively care for patients and their families.

Initial here

Psychomotor Ability. The student must be able to perform gross and fine motor movements with sufficient coordination needed to provide complete safe effective care for patients. The student is expected to have psychomotor skills necessary to safely perform examination procedures and treatment interventions, including CPR if necessary. Examples of examination procedures include, but are not limited to, cognitive assessment, range of motion, manual muscle testing, sensation, balance, functional abilities, pain, cardiopulmonary status, percussion, palpation and anthropometrics. Treatment interventions include, but are not limited to, patient education, manual therapy, functional training (transfers, bed mobility, activity of daily living training, etc.), and application of therapeutic physical agents such as electrotherapy, radiation, heat and cold, and wound care.
The student must have sufficient levels of neuromuscular control and eye-to-hand coordination as well as possess the physical and mental stamina to meet the demands associated with extended periods of sitting, standing, moving and physical exertion required for safe patient care. Students must be able to bend, squat, reach, kneel or balance. The DPT curriculum might require students to carry and lift loads from the floor, from 12 inches from the floor, to shoulder height and overhead. The student must be able to occasionally lift 50 pounds, frequently lift 25 pounds and constantly lift 10 pounds. The student is expected to be able to maintain consciousness and equilibrium and have the physical strength and stamina to perform satisfactorily in clinical settings.

Initial here __________

**Intellectual/Cognitive Ability.** The student must have the ability to develop critical thinking and problem-solving skills essential to professional physical therapy practice. Problem solving skills include the ability to measure, calculate reason, analyze, synthesize, and judge objective and subjective data, and to make decisions in a timely manner that reflects thoughtful deliberation and sound clinical judgment. The student must demonstrate application of these skills and possess the ability to comprehend, retain, retrieve and incorporate prior knowledge with new information from multiple sources including, but not limited to, self, peers, instructors and related literature to formulate sound judgment for competent patient/client management, practice management and functions required for clinical scholarship.

Initial here __________

**Behavioral and Social Attributes.** The student is expected to have the emotional stability required to exercise sound judgment, complete assessment and intervention activities. Compassion, integrity, motivation and concern for others are personal attributes required of those in the DPT program. The student must fully utilize intellectual capacities that facilitate prompt completion of all responsibilities in the classroom and clinical settings; the development of mature, sensitive and effective relationship with patients and other members of the healthcare team. The student must have the ability to establish rapport and maintain respectful interpersonal relationships with individuals, families and groups from a variety of social, emotional, cultural and intellectual backgrounds. Each student must be able to adapt to changing environments, display flexibility, accept and integrate constructive criticism given in the classroom and clinical settings, and effectively collaborate with others. Students must continuously self-assess to improve as a professional.

Initial here __________

**Ability to Manage Stressful Situations.** The student must be able to adapt to, and function effectively in relation to, stressful situations encountered in both the classroom and clinical settings, including emergency situations. Students will encounter multiple stressors while in the DPT program, and must effectively manage these stressors throughout entire workdays. These stressors might be (but are not limited to) personal, patient care/family, faculty/peer and/or program related.

Initial here __________

**Health Screening and Background Check.** Physical Therapy professional phase students are required to have completed a health screening, updated immunizations and tuberculosis screening according to current Centers of Disease Control and Prevention (CDC) recommendations for health professionals, criminal background investigation and drug screening as required by internship placement sites. Exceptions to the immunization requirements will be considered on a case-by-case basis where, for example, a student has an allergy to a vaccine or one of its components. If an exception to the immunization requirements is approved, the University cannot guarantee that its affiliated hospitals and clinics will allow the student to participate in patient care, which is a fundamental requirement of the clinical education component of the Program.

Initial here __________

**Evaluation.** An applicant/candidate with a handicap shall not, on the basis of his or her handicap, except those that would preclude the essential skills outlined above, be excluded from participation in, denied the benefits of, nor be subjected to discrimination in the program. Carroll University may require that the applicant/student undergo a physical examination and/or an occupational skills evaluation.

All DPT students must be able to perform the essential functions of a student physical therapist. Reasonable accommodations will be afforded to students with disabilities as required under the Americans with Disabilities Act of 1990. A student who can no longer perform the essential functions of a student physical therapist must report this to his/her program adviser. If reasonable accommodations cannot be made, the student will not be able to remain in the DPT program.

I certify that the information submitted in this form is complete and correct to the best of my knowledge.
