

Bachelor of Science: Nursing

The Carroll University nursing program builds on Carroll University's mission of providing a superior educational opportunity to our students, one grounded in the liberal arts tradition and focused on career preparation and lifelong learning. Nursing practice is built on nursing knowledge, theory, and research. Nursing practice derives knowledge from a wide array of other fields and disciplines, adapting and applying this knowledge as appropriate to professional practice. It is the mission of the Carroll University nursing program to prepare nurses for professional practice in a variety of settings, preparing them to take on characteristics that will allow them to function in the generalist professional nursing role.

Delayed Admission - Transfer students may apply to the nursing major upon satisfaction of the following:

1. A cumulative GPA of 2.75 or higher in college coursework.
2. A professional science GPA of 2.75 or higher in college coursework.
3. Completion of BIO 130 Human Anatomy and Physiology I & CHE 101 General Chemistry (grade of B- or higher).
4. A minimum course grade of B- is required in all transfer coursework used to calculate the professional science GPA (ANP130, ANP140, BIO 212, CHE 101, CHE 102, HSC 300).

Candidates with science coursework more than five years old may be required to repeat coursework prior to application. Admission and progression standards are subject to change based on regulatory, licensing and/or certification needs. Decisions are made by a selection committee and applicants are notified through the Office of Admission. The process is a competitive one; simply satisfying the minimal criteria listed, does not guarantee an offer. Course sequencing plans are provided to students accepted to the nursing program resulting in a three to four year completion timeframe.

Nursing major SUPPORT REQUIREMENTS with transfer equivalencies

Carroll University

UW-Colleges

ANP130 Human Anatomy and Physiology I	BIO285 Anatomy and Physiology I
ANP140 Human Anatomy and Physiology 2	BIO286 Anatomy and Physiology 2
BIO212 Microbiology	BIO251 General Survey of Microbiology
CHE101 General Chemistry	CHE125 Introductory Chemistry
CHE102 Biological Chemistry	CHE203/211 Survey of Biochemistry & Lab or CHE204 Applied Survey of Biochemistry
PSY101 Introduction to Psychology	PSY201 or 202 Introductory Psychology
PSY221 Life-Span Psychology	PSY250 Life Span Developmental Psychology

General Education Requirements

All students must fulfill the Carroll University Pioneer Core requirements including the Cross-Cultural and Distribution components to receive their degree. The Cross-Cultural Component includes: CCS199 Cultural Seminar, ENG170 Writing Seminar (**ENG101 or 102 @ UW-Colleges**), Cross-Cultural Development, CCS300 Cross-Cultural Experience and CCS400 Global Perspectives Colloquium. The Distribution Component includes four introductory level General Education 1 (G1) courses and one higher-level General Education 2 (GE2) course, outside of their major. A GE2 course must be from the same discipline as one of the GE1 courses previously taken (e.g., a GE1 English course and a GE2 English course) or in a pre-approved cognate field. Students will complete coursework in the Fine Arts, Humanities, Philosophy/Ethics/Religion, Social Sciences and Natural Science areas. Students earning an associate of arts or an associate of arts and sciences degree will have fulfilled various components of the Pioneer Core. Please consult the Carroll University catalog or an admission counselor for details.

Graduation Requirements

- **Mathematical Literacy** – is degree specific; consult catalog. Nursing majors complete the following:

Carroll University

UW-Colleges

CMP112 Computational Thinking I and	MAT117 Elementary Statistics
CMP114 Computational Thinking II	BUS243 Economics and Business Statistics

- **University Convocation Program** – attendance at 2 events per year is required of all full-time students.
- Students must earn a minimum of 128 credits, with the last 32 credits completed at Carroll.
- Nursing students must maintain a 2.75 or higher semester grade point average and earn BC or better grades in all nursing, science and health science coursework to satisfy the progression standards.
- One-fourth of the major requirements must be completed at Carroll University.
- A total of 64 credits may transfer from a two-year institution.

Sample of UW-College courses that will fulfill the Distribution and Cross-Cultural Development

Components: (GE1, GE2 and CCD) Nursing majors are waived from the Natural Science (N1, N2) areas.

They will have fulfilled the S1 category with PSY201/202 and the S2 category.
